LAGOON

# Lagoon Seventy 7 #19 from 2021

A grand Lagoon is not simply a larger Lagoon; it's another concept, another dimension, a Lagoon belonging to the world of superyachts. A challenge, given the extent to which this universe embodies conventions that had to be incorporated, adopted, without abandoning the generosity and friendliness that are characteristic of Lagoon. The starting point is life on board. Sailing, living on board, is a succession of moments spending with people that you love.

We imagined what these moments might be according to the various types of use:  
family boating, friends and charter...

But also how to accommodate the presence of the crew that such a vessel requires.

EARLYBIRD

# EARLYBIRD

Lagoon Seventy 7 Earlybird has been created by an owner who wishes to share his beautiful yacht with charter guests that he hopes will return year after year....

Earlybird was launched in spring 2021 and has been successfully chartering in the Mediterranean and Caribbean for the last 2 years.
